Primary Server
\$1019 per year

Additional Server
\$699 per year

Server Assurance Premium

Primary Server
\$1389 per year

Additional Server
\$819 per year

Peace of mind that someone is monitoring your server, so you don't need too.

Techno Phobia's Server Assurance provides proactive monitoring and health check reporting on key aspects of your server's software and hardware. Participating in this program will ensure you are taking a proactive approach towards your IT, minimizing your business risk and potential disaster. Server Assurance provides;

24/7 Remote Monitoring
 Gives us up to date information about the status of critical issues affecting your internet, email, backup and hardware components.

Anti-Virus Update Check
 Reporting on whether your Anti-Virus is updated with the latest threat definitions and licensing subscription.

Weekly Health Report
 Nominated staff will receive an easy to read colour coded report via email covering all aspects of the server assurance program.

Microsoft Update Check
 Providing you with a notice of available updates. Installation of updates is optional.v

Data Backup Checks
 Reporting on the success or failure of your daily backup for the last seven days.

Resources Update Checks
 Reports on the server's resources to help maintain and grow your business.

Microsoft Update Check
 Providing you with a notice of available updates. Installation of updates is optional.v
